The next step in producing was the drilling of wells down to the third sand, where a much larger production was maintained. In September, 1861, the famous Phillips well, on Oil creek, was struck, and did 4000 barrels in the first day. This was followed by the Empire and other wells. In the meantime oil was selling all the way from ten cents to \$20 a barrel, though the average price was \$4. There is no need to trace the extension of op-erations, the opening of new fields in Veiango, Butler, Clarion and McKean coun-ies, in Pennsylvania, and in New York then the yearly increase has been about 5,000,000 barrels. The greatest production was obtained in 1882, when it reached the enormous total of 31,789,190 barrels. As misery loves company, it is not sur

HALL'S Vegetable Sicilian HAIR RENEWER

E. Mis. Hunnhermy, 844 Franklis Ass., Brooklyn, N. Y., after a severe attack of Expsipolas in the head, found her hair—already gray—failing off so rapidly that she soon became quite boil. One bottle of Hall's Hair Renewen brought it back as soft, brown and thick as when she was a girl.

27 Mis. Kesling, an old farmer, near Worsow, Ind., had scarcely any hair left, and what little there was of it had become nearly white. One bottle of Hall's Hair Renewen stopped lis falling out, and gave him a thick, invariant head of hair, as brown and fresh as he over bad.

27 Mis. A. T. Wall, Greenfield, Cheshire, Eng., writee: "I have found the greatest benefit from the use of Hall's Hair Renewen, it having restored my hair, which was rapily falling off, and returned its original color."

28 Dr. Eril. Suip. Detroit, Mich., certifies that "Hall's Hair Renewen is excellent for heir growing, and gives back the instruction faded and gray hair." to faded and gray hair."

\*\*2\*\* MRS. S. E. ELLIOTT, Gleswills, W. Vo., says: "One bottle of HALL'S HAIR RENEWER restored my hair to its natural, youthful color."

No injurious substances enter into the composition of HALL'S HAIR RENEWER, and it is not a dye. Its vegetable ingredients render it in the highest degree beneficial to the scalp as a preventive of disease. Its effects are natural and lasting, and it does not make the hair dry and brashy, like the so-called restoratives compounded with alcohol.

**Buckingham's Dye** FOR THE WHISKERS

Is, in four respects, superior to all others.

Ist—It will produce a rich, natural color, brown or black, as desired.

2d—The color so produced is permanent, cannot be washed off, and will not soil anything with which it comes in contact.

3d—It is a single preparation, and more convenient of application than any other hair or whisker dye.

4th—It contains no deleterious ingredients, as do many preparations offered for like use. PREPARED BY R. P. HALL & CO., Nashua, N. H.
